

Lay Bible Institute Winter 2016

IN AWESOME WONDER FINDING OUR PLACE IN GOD'S CREATION

Martin Luther once lamented that we fail to see the daily miracles of God because they are so common. He suggested that if there were no eggs in the world, and someone brought one from Calcutta, everyone would regard it as a "miracle of miracles." But because we see them every day, we fail to regard them as wonders of God. As a result, there might be something more to creation that we often miss, something that can bring wonder into your life and give you a fresh sense of gratitude and contentment.
